Dear Son

Enclosed you will receive the left half of one hundred and fifty Dollars the right of which I enclosed you by last mail. I also enclose you five Dollars which I concluded to send, but too late to go with the other so therefore I send the whole bill in this, which I hope will come duly to you. You will please acknowledge the receipt of all the money.

We are all well except Jack. He is complaining of something like the Rheumatism but not very bad.

We have had a fine rain since I wrote you last. It was rather cool but not cold enough to injure any thing but to the contrary it helped our crops very much.

John W. Mallory & one of the young Mayo^r started to N^c Carolina a few weeks ago for the purpose of purchasing Negroes for Redmond. Mallory promised to visit you

provided he came in the Neighbourhood,
F. P. Redmond expects to start to No Carolina
in a few weeks. He says if he comes any
ways near you he will be sure to come
and see you. I notice in a Catalogue
you sent me that for \$5 per session
you "a student of the College" might
take up the study of Law and graduate
in two years and a half which will
be but six months longer than you will
have to stay any how & cost only one hund-
red and twenty five Dollars Extra.

If you desire to take up the
study I am more than willing to pay
the 125. \$ and let you furnish, for if
you come home you would have to board
out to study the profession which would cost
at least three times that much.

You can use your own pleasure about
the matter but I would rather prefer
your taking up the study. If you conclude
to take up the study inform me when
you acknowledge the receipt of that money
exactly how much more money would
be required and at what time

Nothing more, write soon your affectionate Father
